JOB DESCRIPTION

Title: CTSS/ARMHS Practitioner
Division/Department:  
Department: Children’s  
FLSA (Fair Labor Standard Act) Status:
Reports To: Children’s Clinical Supervisor  
Employment Status: Full Time

SUMMARY

The staff in this position will provide Children’s Therapeutic Services and Supports (CTSS) to children under the age of 18 who have emotional disturbances, to help the child and their family restore the child to a level of functioning that they would have had if normal development had not been impaired because of a mental health disorder. The staff in this position will also provide Adult Rehabilitative Mental Health Services (ARMHS) to adults with a mental illness. These services instruct, assist, and support the recipient in basic living and social skills. These activities are to help restore a recipient’s skills for managing his or her illness and everyday independent living. The service areas would include: interpersonal communication skills, community resource utilization and integration skills, crisis assistance, relapse prevention skills, health care directives, budgeting and shopping skills, healthy lifestyle skills and practices, cooking and nutrition skills, transportation skills, medication education and monitoring, mental illness symptom management skills, household management skills, employment-related skills, and transition to community living services.

PRIMARY RESPONSIBILITIES

- Assist the adult or child in obtaining a Diagnostic Assessment, if one is needed.
- Provide skills training, assessment and monitoring in the areas identified in the adult or child’s Diagnostic Assessment and Functional Assessment(s).
- For children, either obtain from a professional or complete the functional assessment tools such as; The Child and Adolescent Service Intensity Instrument (CASII), Early Childhood Service Intensity Instrument (ECSII) and the Strengths and Difficulties Questionnaire (SDQ).
- Provide services in (to individuals, families or groups) a one to one and group format, in the recipient’s home, community or office.
- Participate in regular staff/team meetings.
- Maintain records of progress for each face-to-face meeting and telephone contact with client. Reports will include an assessment of the adult/child’s ability to function and manage the symptoms of his/her illness based on observation and interaction with the client.
- Maintain records of contact with other providers and or collateral contacts regarding client care.
- Assist adults receiving ARMHS in creating a treatment plan.
- Under the direction of the clinical supervisor, develop a Individual Treatment Plan (in conjunction with the youth and family) that identifies the interventions, treatment and services for the youth that is based on the needs identified in the Diagnostic Assessment.
• Schedule appointments and see the client to give requested services for the amount of time and frequency agreed upon by the clinical treatment team and client, and as needed based on the client’s immediate needs.

• Coordinate and cooperate with other agency and community providers to provide the best possible care for the client. This practitioner will complete all necessary Release of Information documents for communication with other providers and keep these current for each client in order to be compliant with HIPAA and Data Privacy guidelines.

• Monitor client progress and with the clinical team, modify the treatment plan as appropriate. Communicate changes in service needs and make recommendations to Clinical Supervisor/Mental Health Professional, Treatment Director, Case Manager, and other members of the treatment team on an ongoing basis to coordinate client care.

• Intervene as necessary for emergencies and/or when he/she assesses that the client is unable to manage his/her illness in a reasonable manner. Contact to appropriate emergency services, doctors, staff, and emergency family contacts will be made to alert them of intervention planned or taken.

• Meet regularly with Clinical Supervisor/Mental Health Professional/Treatment Director for individual and group reviews of client needs and receive direction for treatment. Annual chart audits will be completed.

• Mandated Reporting: Under Minnesota Statute 626.556, persons in designated professional occupations are mandated to report suspected child abuse or neglect.

• Must be able to transport clients in the community.

• Complete all paperwork, reports, and charting in a professional and timely manner.

• Participate actively in on-going professional growth and development; maintain appropriate professional behavior and participate in appropriate supervision.

• Participate in training as assigned.

• Maintain a pattern of regular work hours as determined and assigned.

• Comply with all Data Privacy rules and regulations.

• Other duties as assigned.

SECONDARY RESPONSIBILITIES

• Performs miscellaneous projects and completes various tasks as requested by management.

• Occasional public speaking.
